

# ASSET ANALYZER FOR AIRFRAMES, ENGINES AND APUs

## MAXIMIZE PART PROFITS & INTELLIGENCE

- Find the most in-demand parts for airplanes, engines and APUs
- Indispensable solution for MROs, OEMs, Dismantlers and Parts Traders

# BENEFITS

By airframe, engine, APU or part, ILS Asset Analyzers provide research and insight from nose to tail including:

## DEMAND

Broken down by End User or Non-End User as well as regionally, know the number of searches conducted in a given timeframe for a specific part number.

## SUPPLY

Broken down by type of user, condition and region, know the number of suppliers listing a specific part number as well as the quantity listed in a given timeframe.

## FAIR MARKET VALUE

Our proprietary algorithm provides a Fair Market Price point per part number, pricing spread, along with confidence level, based on gathered data.

## AIRCRAFT APPLICABILITY

Know whether a part has cross-model applicability within aircraft, engine or APU models, and which parts still have relevancy on newer models.

## REPAIRABLES

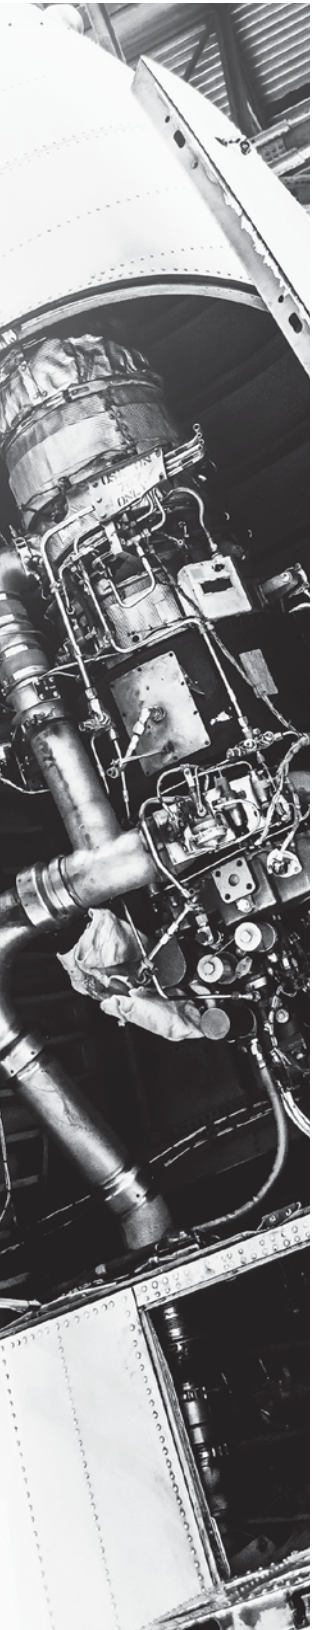

Quickly sift through thousands of parts to find those repairables most demanded and most valued.

## ATA GROUPS AND ATA CHAPTERS

Search and group parts easily by ATA chapter.

## UP-TO-DATE INFORMATION

Purchase Asset Analyzer updates and benefit from the latest market data.

# AIRCRAFT

## AIRBUS

A318 | A319 | A320 NEO/CEO | A321 | A330 A340

## PRATT & WHITNEY / HAMILTON SUNDSTRAND

APS3200 | PW901A/C | APS5000

# VALUE

## FIND WHAT YOU NEED - DETERMINE THE RIGHT SUM OF PARTS TO MAXIMIZE PROFIT

Search our Asset Analyzer by part numbers and applicability, by ATA chapters, price, and other critical information for the aviation aftermarket industry, to determine what combination of airframe and/or engine parts can deliver the most profit to your business. Use the power of ILS market intelligence to

- Browse through targeted and platform specific parts to find those repairables most demanded and highest valued.
- Maximize your insights by understanding whether a part has cross-model applicability within a specific model group of aircraft, engines or APUs.
- Understand which older parts are forward compatible to newer models, to help you identify the most lucrative parts.

## DECIDE BETTER, FASTER UTILIZING SOPHISTICATED PRICING ANALYSES

ILS provides AI (Artificial Intelligence) driven market intelligence and custom reports you need to determine supply and demand for specific parts, track activity and pricing trends, including:

- Fair Market Value (FMV) by condition code including NE (New Condition), NS (New Surplus), OH (Overhauled), SV (Serviceable), AR (As Removed).
- Quote History, Published and Retail Pricing, Procurement History and List Prices provided by Customers, by region.

Sign up for our Asset Analyzer Updates and benefit from frequently updated Airframe and Engine data sets.

## ENGINES

### ALLISON

T56

### CFM INTERNATIONAL

CFM56-5B | CFM56-7B

### CONTINENTAL

O200 | O240 | O300 | O360 | O470  
O520 | O550

### GE

CF6-80C2 | CF34-8 | GE90-100

### IAE

V2500-A1 | V2500-A5

### PRATT & WHITNEY

PW4000-94 | PW4000-100

# ABOUT US

For buyers and sellers of parts, equipment and services in the commercial and defense aerospace industry seeking to optimize their procurement, supply chain and MRO services, ILS provides the largest world-wide digital marketplace and aerospace business intelligence services.

Trusted by the aerospace industry for over 40 years, ILS helps customers make better decisions faster with the most comprehensive AI driven data services and the largest verified Aerospace part inventory world-wide.
